

JOIN AUSTRALIA'S LEADING CORPORATE SUSTAINABILITY PROGRAM

Who is Green Capital?

The Green Capital program was established by the Total Environment Centre in 2002, in recognition of the need to engage with the business sector on issues of sustainability.

For the past five years, Green Capital has successfully brought over 1,000 Australian businesses, all levels of government and NGO's together to discuss corporate sustainability and responsibility. Green Capital's quarterly events remain strong after five years of operation engaging a regular audience in Melbourne and Sydney.

The events showcase opinion leaders from all sectors to discuss and propose solutions to current environmental and social issues facing organisations. The debate series provides practical knowledge around the issues along with discussion papers and in-depth forums.

The value of being a Green Capital subscriber

As an individual the Green Capital program provides:

- Networking opportunities
- Stakeholder engagement opportunities
- Knowledge on current sustainability issues

For your organisation Green Capital offers:

- An introduction to topics from key opinion leaders
- Information to keep your organisation competitive
- Ways to decrease organisational risk

Why become a Green Capital subscriber?

Through our events you also have unique **opportunities to network and share ideas** with others from a variety of industry sectors and experiences outside of the debates. This program encourages organisational sustainability in Australia and allows your business to remain at the forefront of sustainability issues and maintain a competitive edge. **Join Now!**
