

Carbon Offsets

What's best and their future in Australia

Sydney: Tuesday 16th September 2008,
Cocktail event: 5:30pm – 8:30pm, Bayside Terrace,
Sydney Convention & Exhibition Centre

The first independent ranking of Australian carbon-offset providers – **Carbon Offset Watch** - will be released by Total Environment Centre, CHOICE and Institute of Sustainable Futures. If you are looking for the best providers, this extensive survey is a must. We will tell you about provider practices, accreditation, transparency, the range of products and other essential features.

Followed by a panel discussion about the future of carbon offsets under an ETS and government regulation; with consumer confidence and corporate reputations at stake.
 What's the next stage in voluntary carbon management?
