

## Staff Engagement Workshop

### Engage your staff on Energy Efficiency

Energy prices have increased and this trend will only continue; with a price on carbon is just around the corner, energy efficiency must be a key part of your business plan... Now!

**Green Capital** and the **Total Environment Centre** have developed an engaging & informative workshop on energy efficiency and sustainability.

The workshop will inspire and motivate your staff to act on opportunities for energy efficiency in the workplace, at home and in their community.

This workshop will help your organisation to:

- capitalise on your most cost effective opportunity for energy efficiency – the low hanging fruit
- engage and enthuse your staff on sustainability and energy efficiency
- set targets and develop an action plan to reduce your greenhouse emissions
- access the latest tools & resources on energy efficiency and sustainability
- develop a case study to profile your achievements

### Components of the Workshop

- 3-hour workshop for up to 30 staff
- facilitators:
  - Irmine van der Geest, Sustainability Advisor with Green Capital
  - Sarah van Erp, Resource & Climate Change campaigner TEC
- interactive exploration and identification of issues
- creative problem solving techniques
- contribution of staff ideas and experiences
- review of personal barriers and challenges
- identification of solutions and action planning
- discussion on embedding sustainability in your workplace culture

To discuss how your organisation can reap the benefits of energy efficiency, please contact Sarah van Erp on 9261 3437 or [sarahve@tec.org.au](mailto:sarahve@tec.org.au) and visit [www.greencapital.org.au](http://www.greencapital.org.au)
